**BaaySCI PCR Plates**

BaaySCI Clear PCR Plates with Chimney Top (48-Well & 24-Well)  
 SKU: BY-SS-3411-00

BaaySCI 0.1 mL Low-Profile PCR Plates  
 SKU: BY-SS-3441-00

BaaySCI PCR plates, available in 96-, 48-, and 24-well formats, fit most thermal cyclers. Made from ultra-pure polypropylene, they ensure reliable heat transfer, reduce evaporation, and are certified free of contaminants.

**CoolCaddy™ PCR WorkStation**

Keep your samples cool without the mess of ice. The CoolCaddy™ PCR WorkStation maintains 2–4°C for up to 5 hours, ensuring stable temperatures for tubes, plates, and strips. Just freeze overnight, and it's ready for hassle-free, reliable cooling.

SKU: R4015

**Micronic Push Cap Capper/Decapper CP600 Range**

Micronic Push Cap Capper CP600  
 SKU: MP35020

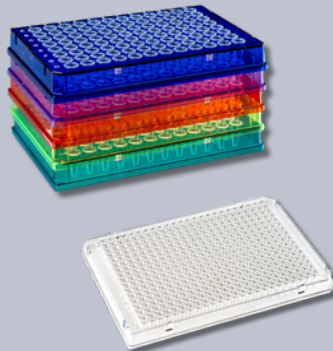

Micronic Push Cap Decapper CP620  
 SKU: MP35000

Seal and remove Micronic push caps with ease. The CP600 caps 96 tubes in just 7 seconds with a button-free design, while the CP620 decaps them just as fast. Reliable, hands-free, and built for smooth lab workflows.

**BaayFrame™ PCR Plates**

Internal, External, External Hybrid thread

SKU

Versatile, high-quality plates for precise PCR performance. Available in 96- and 384-well formats, with full-skirt, semi-skirt, and rigid options to fit various workflows. Built to last, easy to use, and designed to fit right into your workflow!
