Frightfully Good Lab Finds This October

Micronic DR900 Rack Reader

MICRONIC

Read 2D-coded tubes across a complete rack with the Micronic DR900 Rack Reader, supporting efficient sample identification and tracking in high-throughput laboratory workflows.

SKU: MP35231

VITL Ther-mix Thermal Mixer

The VITL Ther-mix combines temperature-controlled heating and mixing for consistent sample preparation. Its compact benchtop design supports everyday laboratory workflows.

SKU: V102001

Benchmark Scientific PlateFuge™ MicroPlate Microcentrifuge

Benchmark Scientific

The Benchmark PlateFuge quickly spins down droplets in PCR plates and microplates, helping prepare samples for downstream analysis in a compact benchtop footprint.

SKU: C2000

Accuris SmartReader Multimode

SKU: MR9620

Compact microplate centrifuge with a patented swing-out rotor for fast, spill-free spin-downs. Fits all popular PCR plate formats and spins most samples in under 20 seconds.

BaaySCI CoolCaddy PCR WorkStation

SKU: R4015

Keep PCR reagents and samples organized at the bench with the CoolCaddy PCR WorkStation, designed to support temperature-sensitive sample preparation.
